Marty tells me permit needs to be approved by the listing date, but people can sign up until the effective date. So, we are cutting it close (maybe too close). At this point, Marty is recommending we go ahead and assume it'll end up being an HCP with a new comment period needed. This is less than ideal, but manageable I suppose.

Does sound like from your perspective we're going to do everything possible to achieve 8/11 recognizing this date is uncertain. We'll plan accordingly.

Seth

> Hello Seth - I can't even pretend to give odds on the likelihood of the rule publishing on time. This administration has not yet missed a court ordered deadline (regarding our program at least), but we haven't had any rules need to go through in the short time since Acting Director Sheehan has joined us. We haven't seen or heard any clear indication that they won't move our rules, so we're proceeding towards the August 11 deadline.
>
> However, why did the timeline to finalize the CCAA get truncated? Last I heard, we had until the effective date of the listing rule (roughly September 11) to finalize the permit. I'm definitely not a section 10 expert, so maybe I misunderstood something?

I checked the Federal Register and based on their Table of Effective Dates a publication on July 6th with a 30-day comment period means the comment period will close on August 7th. Lesli

NOA could be in the reading room Monday or Wednesday (July 3 or 5).

Larry, what's your availability for posting the coming documents on the NMES Texas hornshell page on Monday or Wednesday?

Susan and Deb. Will either of you be available to make courtesy contacts on Monday or Wednesday?

Deb or Luela, can you please provide the final versions of the CCA/As to us for posting (particularly if they've been updated since DTS surnaming)?
